Jiameng Lai

School of Geography and Ocean Science, Nanjing University

E-mail: njuljm@foxmail.com • Homepage: https://jiamenglai.github.io/

Education

B.S. of Geographic Information Science, Nanjing University 2013.09-2017.06

Overall GPA: 4.46/5.0 Major GPA: 4.48/5.0

M.S. of Cartography and Geographic Information Science, Nanjing University 2017.09-2020.06 (expected)

Overall GPA: 4.48/5.0 Major GPA: 4.57/5.0

Research Interests

- Urban environment; Remote sensing; Urbanization; Land use and land cover change; Land-atmospheric interaction.

Grants

2018-2019 **PI**, "Satellite-based attribution analysis and scenario simulation of spatial-temporal evolution of surface urban heat island", funded by Jiangsu Provincial Education Department, China, **RMB 15,000**.

Publications

Journal articles, In Preparation/Under Review

1. **Lai, J.**, Zhan, W., Voogt, J., Quan, J., Huang, F., Zhou, J., Bechtel, B., Hu, L., Wang, K., Cao, C., and Lee, X., 2019. Synoptic controls on daily variations of nighttime surface urban heat islands under clear-sky. *Remote Sensing of Environment*. (under 2nd round of review)
2. **Lai, J.**, Zhan, W., Quan, J., Bechtel, B., Wang, K., Zhou, J., Huang, F., Chakraborty, T., Liu, Z., and Lee, X., 2019. Statistical simulation of next-day nighttime surface urban heat islands. *ISPRS Journal of Photogrammetry and Remote Sensing*. (under review)
3. Liu, Z., Zhan, W., **Lai, J.**, Hong, F., Quan, J., Bechtel, B., Huang, F., and Zou, Z., Surface urban heat island across 2139 global cities: Multi-time scale patterns. (in preparation)
4. Huang, F., Zhan, W., Wang, Z., Voogt, J., Hu, L., Quan, J., Liu, C., Zhang, N., and **Lai, J.**, 2019. The first satellite-based identification of vertical profile of urban heat island from boundary layer to subsurface under clear skies. (manuscript finished and in submission to *Remote Sensing of Environment*)

Journal articles, Published

5. **Lai, J.**, Zhan, W., Huang, F., Voogt, J., Bechtel, B., Allen, M., Peng, S., Hong, F., Liu, Y., and Du, P., 2018. Identification of typical diurnal patterns for clear-sky climatology of surface urban heat islands. *Remote Sensing of*

Environment, 217, 203-220.

Research Experience

- Estimating the impact of the quality of satellite land surface temperature (LST) product on the surface urban heat island (SUHI) quantification (**paper #6**), funded by National Key R&D Program of China 2016-2018
  - The possible biases in the satellite-based SUHI quantification were emphasized.
  - The SUHI variations caused by LST quality were quantified for Chinese 86 cities.
- Satellite-based investigation on the typical diurnal pattern of surface urban heat islands (**paper #5**), funded by National Natural Science Foundation of China 2017-2018
  - The SUHI variations over a full diurnal cycle were re-constructed for Chinese 354 cities.
  - Diurnal climatology of SUHI was estimated, and five typical SUHI diurnal patterns were identified.
  - Controls for the SUHI diurnal variations were analyzed.
- Satellite-based attribution analysis and simulation of surface urban heat island (**papers #1 and #2**), funded by National Key R&D Program of China 2018-present
  - Vast SUHI variations on the day-to-day scale were quantified and emphasized.

- Significant impact from meteorological conditions on the day-to-day variations in the SUHI were examined.
- A statistical approach to simulating the next-day nighttime SUHI was proposed.

- Integrated geological investigation of Mountain Lu 2015
  - Interdisciplinary field practice with professors in climatology, geology, biology, hydrology, and soil science.

Conference Presentations

- *Joint Urban Remote Sensing Event*, Vannes, France (poster & oral) 2019
- *3rd Seminar on Thermal Infrared Quantitative Remote Sensing*, Qingdao, China (oral) 2019
- *AGU Fall Meeting*, Washington, DC, America (poster) 2018
- *5th Youth Scientist Forum of Earth Science*, Nanjing, China (oral) 2018
- *1st International Conference on Urban Informatics*, Hong Kong, China (oral) 2017
- *ISPRS Geospatial week*, Wuhan, China (oral) 2017

Invited Talk

- "Experience Sharing in Learning and Scientific Research". *Special Seminar of Ten-thousand Student Program of Academic Winter Camp in Jiangsu Province*, Nanjing University, China, 2019.
- "Synoptic Controls on Daily Variations of Nighttime Surface Urban Heat Islands under Clear-sky". *University of Electronic Science and Technology of China*, Chengdu, China, 2018.
- "Experience Sharing in Scientific and Technological Papers Writing". *Nanjing University*, Nanjing, China, 2018.

Selected Awards

- National Scholarship, Nanjing University (**1/300**) 2018
- First Grade Award, 5th Youth Scientist Forum of Earth Science (only **1** student in GIS field) 2018
- Pacemaker to Excellent Postgraduate Student, Nanjing University (**1 out of 100**) 2018
- Excellent Student, Nanjing University (**3 out of 66)** 2015
- First Grade Award, University Students' Innovation Competition in Surveying and Mapping Using Geographic Information Software in Jiangsu Province 2015
- National Encouragement Scholarship, Nanjing University 2014|2015|2016

Journal Reviewer

- Sustainable Cities and Society

Skills

- Language: Fluent in English; TOEFL: 104 (R30 L27 S22 W25), GRE general: 161 (V) + 170 (Q) + 4.5 (AW)
- Computer: Skilled in C, C++, python, MATLAB, ArcGIS, Origin Pro, Excel, and ENVI
